		SCHEDULE					WORK STATUS	
	DATE	**DHARUN**	**KRISHNA TEJA**	**SAI LIKHITH**	**GURU SANJAY**			
		Sensor & System Intergration	Image Processing & AR/VR	Design & Software Support	Hardware & System Development		Pending	
WEEK 1	26/11/2018	Orientation by Zinfoway & Presentation by Individual	Orientation by Zinfoway & Presentation by Individual	Orientation by Zinfoway & Presentation by Individual	Orientation by Zinfoway & Presentation by Individual		Completed	
	27/11/2018	Layout of Tracking System / Universal module	Layout of Image Processing System	Layout of Image Processing System	Layout of Tracking System / Universal module			
	28/11/2018	Selection of Sensors	Development of Image Processing Application	Selection of device to connect Image processing data to Universal Module	Selection of controller / board, Power requirements, other required components.			
	29/11/2018	Development of Universal Module	Development of Image Processing Application	Development of Image Processing Application	Development of Universal Module			
	30/11/2018	Development of Universal Module	Development of Image Processing Application	Development of Image Processing Application	Development of Universal Module			
	Weekly report preparation by Dharun - Demo Video of First Week Progress - Skill Enhancement Training I @ HITS / XS REAL Padur							
WEEK 2	3/12/2018	Development of Universal Module	Development of Image Processing Application	Development of Image Processing Application	Development of Universal Module			
	4/12/2018	Development of Universal Module	Development of Image Processing Application	Development of Image Processing Application	Development of Universal Module			
	5/12/2018	Development of Universal Module	Development of Image Processing Application	Development of Image Processing Application	Development of Universal Module			
	6/12/2018	Development of Universal Module	Development of Image Processing Application	Development of Image Processing Application	Development of Universal Module			
	7/12/2018	Demo of Developed Product Phase - 1	Demo of Developed Product Phase - 1	Demo of Developed Product Phase - 1	Demo of Developed Product Phase - 1			
	Weekly report preparation by Krishna Teja - Demo Video of Second Week Progress - Skill Enhancement Training II @ HITS / XS REAL Padur							
WEEK 3	10/12/2018	Deveplment of Sensor Modules - Sensor 1	Converting Application to Stand Alone module using Rasberry Pi	Converting Application to Stand Alone module using Rasberry Pi	Improvising Universal Module (Stand alone device) - Independent Wifi / Net Connectivity			
	11/12/2018	Deveplment of Sensor Modules - Sensor 2	Converting Application to Stand Alone module using Rasberry Pi	Converting Application to Stand Alone module using Rasberry Pi	Improvising Universal Module (Stand alone device) - Independent Wifi / Net Connectivity			
	12/12/2018	Deveplment of Sensor Modules - Sensor 2	Converting Application to Stand Alone module using Rasberry Pi	Converting Application to Stand Alone module using Rasberry Pi	Improvising Universal Module (Stand alone device) - Independent Wifi / Net Connectivity			
	13/12/2018	Deveplment of Sensor Modules - Sensor 2	Converting Application to Stand Alone module using Rasberry Pi	Converting Application to Stand Alone module using Rasberry Pi	Improvising Universal Module (Stand alone device) - Independent Wifi / Net Connectivity			

	14/12/2018	Demo of Developed Product Phase - 2	Demo of Developed Product Phase - 2	Demo of Developed Product Phase - 2	Demo of Developed Product Phase - 2		
	Weekly report preparation by Sai Likith - Demo Video of Third Week Progress - Skill Enhancement Training III @ HITS / XS REAL Padur						
WEEK 4	17/12/2018	Deveploment of Sensor Modules - Sensor 3	Developing layout for AR / VR with IOT Integration	Developing Mechanical Design for Developed Modules	Improvising Universal Module (Stand alone device) - Independent Power Module		
	18/12/2018	Deveploment of Sensor Modules - Sensor 3	Developing layout for AR / VR with IOT Integration	Developing Mechanical Design for Developed Modules	Improvising Universal Module (Stand alone device) - Independent Power Module		
	19/12/2018	Deveploment of Sensor Modules - Sensor 4	Developing Application for AR / VR with IOT Integration	Developing Mechanical Design for Developed Modules	Improvising Universal Module (Stand alone device) - Independent Power Module		
	20/12/2018	Deveploment of Sensor Modules - Sensor 4	Developing Application for AR / VR with IOT Integration	Developing Mechanical Design for Developed Modules	Improvising Universal Module (Stand alone device) - Independent Power Module		
	21/12/2018	Demo of Developed Product Phase - 3	Demo of Developed Product Phase - 3	Demo of Developed Product Phase - 3	Demo of Developed Product Phase - 3		
	Weekly report preparation by Guru Sanjay - Demo Video of Fourth Week Progress - Skill Enhancement Training IV @ HITS / XS REAL Padur						
WEEK 5	24/12/2018	Integration of Developed Prototypes	Integration of Developed Prototypes	Integration of Developed Prototypes	Integration of Developed Prototypes		
	25/12/2018	Demo of Developed Product Phase - 4	Demo of Developed Product Phase - 4	Demo of Developed Product Phase - 4	Demo of Developed Product Phase - 4		
	26/12/2018	Internship Report and Project Report with future scope	Internship Report and Project Report with future scope	Internship Report and Project Report with future scope	Internship Report and Project Report with future scope
